The new Philippine Republic: A Third World approach to democracy

NEW REPORT: Democracy is in crisis around the world, with this year marking a high point in the number of countries facing challenges to their democratic institutions. While they were kept out of government in all but Austria, their success at that time was notable.

As we approach the end of the twentieth century, things look less bright. In examining the travails of democracy in the Third World, this paper is a Political democracy is a system of government that meets the following conditions: 

1. It is based on the rule of law.
2. It includes representation of the people in government.
3. It protects individual freedoms.
